

SECOND FEMALE

DAY TRIPPER

With this Spring collection we are taking you on a cultural day journey.

The collection celebrates a woman who enjoys small adventures in a vibrant city which is ever evolving and changing. She enjoys discovering converted warehouses, small galleries, grand architectural buildings, as well as artisanal exhibitions.

It is an appreciation of all the beauty that daily surrounds us, whether it is a cultural experience or simply a walk in the park, appreciating the change of light throughout the day, structured industrial surfaces as well as immaculate ancient marble sculptures. An appreciation of history juxtaposed with modernity.

Spring 2020 embraces workwear pieces and elements such as top stitches, large pockets and buttons. This is combined with feminine colours and shapes. Prints are inspired by an artisanal and handmade feel.

As a result the collection makes a dynamic, vibrant, modern and feminine statement.

SPRING 2020
